PROFESSIONAL SUMMARY

Product-focused **UX/UI Designer with 3+ years** designing across **AI platforms, SaaS, e-commerce, and mobile** always with one eye on the user and one on the outcome. My designs don't just look right, they perform: an end-to-end redesign drove 80% more traffic to Omarieden, and an AI platform built for sales reps directly correlated with their best-ever performance period. I lead with empathy, validate with research, and collaborate the way good product teams should where the developer, the tester, and the designer are all in it together, and the energy never feels heavy even when the deadline is near.

EDUCATION

◇ UNIVERSITY OF LUCKNOW	JULY 2019 – AUGUST 2023
Bachelor's In Elementary Education (B.El.Ed), 86.8%	

PROFESSIONAL EXPERIENCE

◇ PRODUCT DESIGNER (AI & SaaS Products)	OCT 2025 – CURRENT
MASTERS' UNION GURUGRAM, HARYANA	
◇ Designing next-generation AI-driven platforms including Interview AI, SalesCoach , and the Punjab Startup App , focusing on intuitive experiences, personalization, and seamless user journeys	
◇ Built and maintained a design system for Master's Union University , creating a shared visual language that kept every product consistent, scalable , and faster to ship.	
◇ Conducting structured user research with students , instructors, and internal teams to drive actionable insights and define problem statements for AI features	
◇ Delivered dashboards, prototypes, and AI interaction flows using Lovable, Lovart, and Lottie, bridging design and development so handoffs were seamless, not painful	
◇ UX/UI DESIGNER (E-commerce, Enterprise, Healthcare)	APR 2024 – OCT 2025
SKYVIEW SMART SOLUTIONS, LUCKNOW	
◇ Designed end-to-end user flows, wireframes, and high-fidelity UI for AI-based SaaS platforms and enterprise dashboards serving clients like KAAUH Hospital, AI Raya, and Tamimi Markets .	
◇ Built scalable design systems and component libraries that brought consistency across products and cut down repetitive design work across every project cycle.	
◇ Collaborated daily with PMs, engineers, and QA , translating requirements into pixel-perfect implementations through iterative prototyping and structured feedback loops	
◇ Improved usability and information architecture across complex workflows through wireframing, interaction design, and user-centered design practices.	
◇ GRAPHIC DESIGNER	NOV 2021 – DEC 2022
JB DARUKA PAPERS LTD.	
◇ Designed branding assets, marketing creatives, and visual communication materials for digital and print platforms.	

SKILLS
